

# Rules

## TACC

- Only one computer per team
- Only paper material is allowed (no googling or online documentation)
- Scrap paper is allowed
- Calculators are allowed but not necessarily needed
- Any programming language allowed
- Output must match exactly (do not add prompts)
- With every wrong answer you submit, 20 minutes are added to your total time

*Teams are first ranked by the number of questions solved and then by time. so, if two teams solve all five questions, first place will go to the team who took the least amount of time.*
